

Red Sesbania

Sesbania punicea

Red sesbania seedling.
(4)

A young red sesbania in its vegetative state prior to flowering.
(6)

A stand of red sesbania in flower stage along Dry Creek.

Seeds in late embryogenesis. Seeds at this stage could be viable and spread.
(1)

Mature red sesbania seeds. (2)

Red sesbania in its flowering stage. Red sesbania will produce abundant orange to red flowers. (7)
